Founded on a Vision for Change

What started as a passion project in Palawan has grown into a trusted solar installation company serving homes and businesses across the Philippines. Founded by Pat Aquino, DevSolutions Solar was built on a simple belief: renewable energy should be accessible, reliable, and honest.

With over 280 homes and businesses powered and growing recognition across Facebook, we have learned that the best solar systems are customized to Philippine climate conditions and designed with transparency: no hidden costs, no upselling, just dependable energy solutions.

Today, we are headquartered in Silang, Cavite and serve clients across Metro Manila, Luzon, and Palawan, bringing the same commitment to quality and honesty to every installation, regardless of location.

WORK EXPERIENCE

With a proven track record in solar installation, we have installed solar systems in more than 280 homes and businesses, delivering reliable energy solutions and helping owners significantly reduce their electricity costs. Our growing portfolio reflects our commitment to quality workmanship, customer satisfaction, and consistent performance.

Complete Solar Solutions

From design to installation and maintenance, tailored to your energy needs.

01

RESIDENTIAL SOLAR INSTALLATION

Customized hybrid solar systems tailored to your household's energy consumption, roof structure, and future needs. Whether you aim to cut your bills or add reliable battery backup, we build a system that works for your lifestyle.

02

COMMERCIAL & INDUSTRIAL

Lower your operating costs and protect your business from rising electricity rates. Engineered for efficiency, scalability, and long-term savings: ideal for offices, resorts, shops, and warehouses.

03

HYBRID SYSTEMS WITH BATTERY BACKUP

Stay powered even during outages. Solar paired with battery storage, built for homes and businesses in areas with unstable electricity where reliability is critical.

04

SYSTEM DESIGN & ENERGY ANALYSIS

We don't guess. We calculate. A detailed analysis of your energy usage produces a system designed for maximum efficiency, savings, and return on investment.

05

MAINTENANCE & OPTIMIZATION

Routine maintenance, system diagnostics, and performance optimization keep your solar system reliable and at maximum output for the long term.

06

UPGRADES & SYSTEM EXPANSION

Already have a solar setup? We upgrade or expand it as your energy needs grow: more panels, more batteries, or better efficiency with the latest technology.

Built to Deliver Long-Term Savings You Can Trust

01

BUILT FOR PHILIPPINE CONDITIONS

Designed to withstand intense heat, heavy rains, and coastal environments, using materials and installation methods proven to last in local conditions.

02

HIGH-QUALITY, RELIABLE COMPONENTS

Only trusted, industry-proven panels, inverters, and batteries, for durability, safety, and consistent performance for years to come.

03

CUSTOMIZED, NOT ONE-SIZE-FITS-ALL

Every project is designed around your energy needs, property layout, and budget, so you get the best possible value and performance.

04

SKILLED INSTALLATION TEAM

Trained professionals follow strict installation standards so your system is installed safely, efficiently, and correctly the first time.

05

TRANSPARENT PRICING & HONEST ADVICE

No hidden costs, no overselling. Clear proposals that guide you to the best solution, not the most expensive one.

06

RELIABLE AFTER-SALES SUPPORT

Our service does not end after installation. We remain your long-term partner for monitoring, maintenance, and future upgrades.
